## SHARP ADVANCES SCORED.

MORE THE RESULT OF INCREASED TRADE THAN OF NEWS.

Wheat Advanced 1 3-4c, Onts Added 3-4e to the Previous Price, Corn Advanced 1 3-4c and Provisions Advance 124/035c.

CHICAGO, Dec. 27.-Grains and provisions enjoyed a boom to-day and sharp advances were scored all around. It was more a result of increased trade than of news, outsiders being prominent in all markets. Wheat advanced 1%e and corn about the

Oats addd he to the previous price, while provisions chosed 121-86/5c higher.

The opening in wheat was somewhat irregular, May starting unchanged to he higher at 65-86-4c. All the commission houses were apparently pientifully supplied with large and small buying orders, but in view of the indifference shown by Liverpool and the large receipts here and in the Northwest, the accumulation of three days, local traders showed some reluctance to go after wheat at enhanced prices. But the hesitation was only temporary. The buying demand was so heavy and so well distributed that it became evident the market was in for a boom, and traders with wheat for sale withdrew their wheat for the time being. Prices in consequence jumped with great rapidity. May getting to 69-5c before offerings became heavy enough to ease the market. Heavy realizing caused a short setback, the market reaching to 69-5c-5c, but the heavy demand continued, and offerings were absorbed so quickly that buyers were soon compelled to again advance prices materially before wheat was obtainable. Not until 49-5c was reached was the advance stopped. There was nothing in the news to warrant such an advance, startistics, in fact, rather favoring the other side of the market. But outside interest in the market was so large that it brought local shorts to cover and many heavy local holders increased their lines. Chi-Same. Outs addd %c to the previous price, while side of the market. But outside interest in the market was so large that it brought local shorts to cover and many heavy local shorts to cover and many heavy local holders increased their lines. Chicago received 285 cars since Friday, 28 of contract grade. The Northwest in the same time received 2.192 cars. One feature of the news, and which caused some reaction after the advance to 76½c, was the difference between primary receipts and shipments, the former being 2,734,000 bushels and the latter 421,000 bushels. New York reported a good Continental demand. A decrease on passage of 80,000 bushels, reported early, indicated a large visible decrease. This was verified later, a decrease of 1,756,000 bushels being reported. This fact helped the market late in the session. The market lost none of its bullishness after noon. After reacting to 60%c, another advance took place, 76%c being finally bid for May. That option closed strong at 70%c.

Corn was very strong and active. Heavy receipts and colder weather started the market at a slight decidine, but the buying was so heavy that this was made up in a

market at a slight decline, but the buying was so heavy that this was made up in a hurry and prices advanced steadily to the highest point recorded in months. The strength of wheat was an influence, but the strength was mostly due to increased general interest. The local bull crowd bought heavily and country orders were also very large. Cables were higher and there was a moderate export demand. Receipts were 1.2% cars. May ranged from Silec to 39½c and closed 1½,1½c higher at 29½%39¼c.
Outs were active and higher, though the Oats were active and higher, though the Oats were active and higher, though the advance was small compared with other grain markets. Sympathy with corn and wheat was the main induence. The trading was largely lecal, though outsiders were good buyers. There was a good deal of local realizing, but all offerings were of local realizing, but all offerings were taken and the market closed strong at about the top. Receipts were 836 cars. May ranged from 27%c to 28%c and closed %c higher at 28% 28%c.

Provisions were fully active as the grain Provisions were fully active as the grain markets and prices advanced very rapidly. All classes of buyers were in the market and offerings being moderate, some difficulty was found in satisfying the demand. Hog receipts showed a falling off. Outsiders led the speculation, their buying being heavy all day. The bullishness of grain markets had more or less effect on provisions. At the close May bork was 25c higher at \$19.55. May lard 124c higher at \$5.70 and May rish lic higher at \$5.20. Estimated receipts Wednesday: Wheat, 125 cars; corn, 540 cars; oats, 230 cars; hogs, 45.600 head.

NEW YORK, Dec. 27.—The market for dry goods reopened after the holidays with a quiet spot business in progress in cotton goods and mederate business through mail orders. This had no effect upon the general tone, which continued strong. Stocks are in such excellent shape, as a rule, that sollers are under no pressure to look for orders. Regular print cloths are strong at 2%c and wide odds have advanced to the basis of 3%c for 68½-inch 64-squares. Cotton hostery dull and irregular.

Cotton.

THE AVAILABLE SUPPLY OF CATTLE NOT SHORT.

Though the Visible Supply May Be, Says a Prominent Stockman-Yesterday's Visitors at the Yards With Stock.

A prominent member of the National Live Stock Association in writing of the cattle supply makes a distinction between the visible and available supply and justly so. The visible supply only representing

Scientification of the National Experimental Control of Original C

the average price close to present figures. The medium grades should average about steady with a tendency of common cattle, under the light demand, to rather lower prices, but not much lower, as the scarcity of the choice cattle for the next year at least, will compel demand enough for the common kinds to keep them fairly active. Beef cattle should sell higher on all markets before spring, and this will have a tendency to strengthen the stock cattle market.

market.
"The anxiety of the owners of common cattle to close out their holdings, and the strong demand for choice cattle, both for stockers and feeders, is a combination that may hold the market close to present prices, but the tendency is undoubtedly higher." market.

A number of good cattle were in yester-day, and they sold very well. Fred Miller, of St. Mary's, Kas., was here with seventeen grade Hereford and Shorthorn steers of his own feeding that were smooth and fat. They averaged 1.30 pounds and were sold by the Northwestern Live Stock Commission Company at \$5.25 per 100. They were taken by Michaels, on an order.

The average weight of hogs in Chicago last week was 236 pounds, again pounds the same time last year. At Sioux City, In., the average of hogs
